KHURSHED KHAN

SENIOR FRONTEND DEVELOPER

Dubai, UAE | +971 559553204 | Khurshedkhan52@gmail.com | Website | LinkedIn

PROFESSIONAL SUMMARY

Senior Frontend Developer with 9+ years of experience designing and developing scalable, high-performance web applications using React.js, Next.js, Angular, Vue.js, and TypeScript. Specialized in fintech, trading platforms, real-time dashboards, and enterprise applications. Experienced in integrating AI/LLM capabilities into frontend products, including Gemini-powered conversational interfaces and natural-language workflows.

TECHNICAL SKILLS

Frontend Technologies	React.js, Next.js, TypeScript, JavaScript (ES6+), Angular, Vue.js, Redux, TanStack Query (React Query), Context API, Ember.js, HTML5, CSS3
UI Frameworks	Tailwind CSS, Bootstrap, Angular Material, Ant Design
Data Visualization	Highcharts.js, Chart.js, Recharts
Backend & API Integration	Node.js, REST APIs, WebSocket, API Integration, Third-Party Services
AI & LLM Integration	Gemini API, LLM Integration, Prompt Engineering, Generative AI Integration
Testing & Quality	Playwright, End-to-End Testing, UI Automation, Cross-Browser Testing
Tools & Technologies	Git, GitHub, MongoDB, Figma, Webpack
Soft Skills	Complex Problem Solving, Agile/Scrum, Mentorship

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Trive International, Dubai — **October 2025 — Present**

- Lead frontend architecture and development of **Forex/CFD trading platforms** supporting thousands of active traders, using React.js, Next.js, and TypeScript.
- Architected a library of **20+ reusable components**, significantly cutting new feature development time.
- Built **real-time trading dashboards** handling high-frequency WebSocket price updates with minimal latency.
- Reduced page load time by **40%** through code-splitting, lazy loading, and bundle optimization.
- Own frontend technical decisions across a team of **3-5 developers**, including code review standards and architecture reviews.
- Partnered directly with product and backend teams to ship new features on a regular release cycle, integrating **REST and WebSocket APIs** for live market data.

Senior Frontend Developer | CPT Markets, Dubai — **March 2021 — September 2025**

- Developed and maintained **global trading platforms** using React.js, Next.js, Vue.js, and TypeScript.
- Built **interactive financial dashboards** with Highcharts.js for real-time market data and trading analytics.
- Delivered **multilingual Arabic and English experiences** using i18n for international users and regional markets.
- Integrated **REST APIs, WebSockets, and financial systems** for live prices and account workflows.
- Built reusable UI components, mentored junior developers, and partnered with UX and backend teams to improve **delivery speed and code quality**.

Frontend Developer | Micro Pro LLC — General Authority of Sports, Dubai — **February 2017 – February 2021**

- Developed responsive, accessible, and interactive **government web applications** using Angular, TypeScript, JavaScript, HTML5, and CSS3.
- Implemented multilingual **Arabic (RTL) and English (LTR) interfaces**, ensuring consistent layouts, typography, and user experience across languages.
- Developed frontend interfaces aligned with **UAE TDRA digital government guidelines and standards**, focusing on usability, accessibility, and responsive design.
- Integrated REST APIs and collaborated with backend developers, UI/UX designers, and stakeholders to deliver **scalable government web applications**.
- Optimized frontend performance, cross-browser compatibility, and **reusable Angular components** to improve application quality and maintainability.

EDUCATION

Bachelor of Technology (B.Tech)
Computer Science & Engineering
Sabarmati University, Ahmedabad, India
2011 — 2015

Languages English, Hindi

Nationality Indian

Project Summary

01 TradePro — AI-Powered Trading Platform

Senior Software Engineer | Frontend & FinTech Solutions

Visit Link | GitHub

RESPONSIBILITIES

- Designed and developed responsive trading dashboards and financial data visualizations using Next.js, React.js, TypeScript, Recharts, Tailwind CSS, and Ant Design, integrating live market data APIs for real-time prices and currency exchange rates.
- Developed full-stack trading application features using Node.js, Express.js, Prisma ORM, and PostgreSQL, building REST APIs and integrating frontend and backend workflows.
- Implemented secure authentication, customer onboarding, and trading account management, including Veriff KYC integration, identity verification workflows, and customer profile management.
- Developed multi-currency financial transaction modules for deposits, withdrawals, internal transfers, balance tracking, and currency conversion, including transaction lifecycle management.
- Built an AI-powered trading assistant using the Gemini API, enabling users to query account balances, transaction history, and withdrawal statuses through a conversational interface.
- Built a secure Node.js AI proxy that handles user-specific financial requests locally and uses Gemini only for sanitized public market and trading queries.
- Developed financial reporting modules with advanced filtering, server-side pagination, and transaction history, while building reusable React components, custom hooks, and type-safe API service layers for maintainability and scalability.

TECH STACK

Frontend:	Next.js, React.js, TypeScript, JavaScript, Tailwind CSS, Ant Design, Recharts
Backend & Database:	Node.js, Express.js, Prisma ORM, PostgreSQL
Integrations:	REST APIs, Live Market Data APIs, Veriff (KYC), Stripe, Currency Exchange APIs
AI & Secure Proxy:	Gemini API, Conversational AI, Secure Node.js AI Proxy, Sanitized Query Routing
Tools & Architecture:	Git, GitHub, Postman, Custom React Hooks, Component-Based Architecture, Server-Side Pagination
