KHURSHED KHAN

Senior Frontend Developer

Dubai, UAE | +971 559553204 | Khurshedkhan52@gmail.com | Website | LinkedIn

PROFESSIONAL SUMMARY

Senior Frontend Developer with 9+ years building scalable FinTech, trading, enterprise, and government applications. Strong expertise in Angular 20/21, TypeScript, React.js, Next.js, and Vue.js, with backend experience in Node.js, Express.js, PostgreSQL, and Prisma ORM. Delivered four years of Angular-based UAE government applications featuring reusable components, REST APIs, Arabic RTL and English LTR interfaces, WCAG 2.1 AA accessibility, TDRA alignment, and frontend security. Also experienced in WebSockets, secure financial workflows, and Gemini API integration.

TECHNICAL SKILLS

Frontend Technologies	Angular 20/21, TypeScript, JavaScript (ES6+), React.js, Next.js, Vue.js, NgRx, Redux, TanStack Query (React Query), Context API, Ember.js, HTML5, CSS3
UI Frameworks	Angular Material, Tailwind CSS, Bootstrap, Ant Design
Backend & API Development	Node.js, Express.js, REST APIs, PostgreSQL, Prisma ORM, Redis, BullMQ, WebSockets
Testing & Quality	Playwright, End-to-End Testing, UI Automation, WCAG 2.1 AA, UAE TDRA, CSP, XSS/CSRF Mitigation, Cross-Browser Testing
AI & LLM Integration	Gemini API, Secure LLM Integration, Prompt Engineering, Generative AI Integration
Data Visualization & GIS	Highcharts, Chart.js, Recharts, Mapbox, Video.js
Tools & Technologies	Git, GitHub, CI/CD Pipelines, MongoDB, Figma, Webpack
Soft Skills	Complex Problem Solving, Agile/Scrum, Mentorship

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | **Trive International, Dubai** — **October 2025 — Present**

- Lead application development for **Forex/CFD trading platforms** supporting thousands of active traders using React.js, Next.js, and TypeScript
- Develop end-to-end financial application features using React.js, Next.js, Node.js, REST APIs, and database integrations.
- Architected a library of 20+ reusable UI components, accelerating feature development.
- Built **real-time trading dashboards** using WebSockets for live market data.
- Reduced page load time by **40%** through code-splitting, lazy loading, and bundle optimization.
- Lead technical decisions for a team of 3–5 developers, including code reviews and architecture improvements.
- Delivered **Angular 20/21 client portal features** using **TypeScript and NgRx**, including **authentication, KYC, account management, and payment workflows**.

Senior Frontend Developer | **CPT Markets, Dubai** — **March 2021 — September 2025**

- Developed and maintained **global trading platforms** using React.js, Next.js, Vue.js, and TypeScript.
- Built **real-time dashboards, GIS maps, and video interfaces** using Highcharts, Mapbox, and Video.js.
- Delivered **multilingual Arabic and English experiences** using i18n for international users and regional markets.
- Integrated **REST APIs, WebSockets, and financial systems** for live prices and account workflows.
- Built reusable UI components, mentored junior developers, and partnered with UX and backend teams to improve **delivery speed and code quality**.

Frontend Developer | **Micro Pro LLC — General Authority of Sports, Dubai** — **February 2017 — February 2021**

- Developed responsive, accessible, and interactive **UAE government applications** using **Angular**, TypeScript, JavaScript, HTML5, and CSS3.
- Built **reusable Angular components** and integrated **REST APIs** to deliver maintainable and scalable government digital services.
- Implemented multilingual **Arabic (RTL) and English (LTR) interfaces**, maintaining consistent layouts, typography, and user experience across languages.
- Delivered interfaces aligned with **WCAG 2.1 AA accessibility and UAE TDRA standards**.
- Applied **CSP and XSS/CSRF mitigation** and improved frontend performance, cross-browser compatibility, and application maintainability.

EDUCATION

Bachelor of Technology (B.Tech)
Computer Science & Engineering
Sabarmati University, Ahmedabad, India
2011 — 2015

Languages	English, Hindi
Nationality	Indian

Project Summary

01 Trive Client Portal — Angular Trading Platform

Senior Frontend Developer | Angular 20/21 & TypeScript

Visit Link

RESPONSIBILITIES

- Developed responsive and scalable client portal interfaces using Angular 20/21, TypeScript, and Ant Design.
- Built secure registration, authentication, KYC verification, and client profile management workflows.
- Managed user sessions, trading workflows, and application state using NgRx.
- Integrated REST APIs for MetaTrader 4 (MT4), MetaTrader 5 (MT5), and real-time client account management.
- Integrated payment service providers to support secure wallet deposits, withdrawals, and transaction processing.

TECH STACK

Angular 20/21 | TypeScript | NgRx | Ant Design | REST APIs | Authentication | KYC | PSP Integration | MT4 | MT5

02 TradePro — AI-Powered Trading Platform

Full-Stack Developer | FinTech & AI Integration

Visit Link | GitHub

RESPONSIBILITIES

- Designed and developed responsive trading dashboards and financial data visualizations using Next.js, React.js, TypeScript, Recharts, Tailwind CSS, and Ant Design, integrating live market data APIs for real-time prices and currency exchange rates.
- Developed full-stack trading application features using Node.js, Express.js, Prisma ORM, and PostgreSQL, building REST APIs and integrating frontend and backend workflows.
- Implemented secure authentication, customer onboarding, and trading account management, including Veriff KYC integration, identity verification workflows, and customer profile management.
- Developed multi-currency financial transaction modules for deposits, withdrawals, internal transfers, balance tracking, and currency conversion, including transaction lifecycle management.
- Built an AI-powered trading assistant using the Gemini API, enabling users to query account balances, transaction history, and withdrawal statuses through a conversational interface.
- Built a secure Node.js AI proxy that handles user-specific financial requests locally and uses Gemini only for sanitized public market and trading queries.
- Developed financial reporting modules with advanced filtering, server-side pagination, and transaction history, while building reusable React components, custom hooks, and type-safe API service layers for maintainability and scalability.

TECH STACK

Frontend:	Next.js, React.js, TypeScript, JavaScript, Tailwind CSS, Ant Design, Recharts
Backend & Database:	Node.js, Express.js, Prisma ORM, PostgreSQL
Integrations:	REST APIs, Live Market Data APIs, Veriff (KYC), Stripe, Currency Exchange APIs
AI & Secure Proxy:	Gemini API, Conversational AI, Secure Node.js AI Proxy, Sanitized Query Routing
Tools & Architecture:	Git, GitHub, Postman, Custom React Hooks, Component-Based Architecture, Server-Side Pagination

03 CPT Markets

Senior Front End Developer

Visit Link

RESPONSIBILITIES

- Developed responsive, SEO-friendly web pages using Vue.js and Nuxt.js.
- Built reusable UI components and managed application state with Pinia.
- Collaborated with UI/UX designers to convert Figma designs into pixel-perfect, cross-browser compatible interfaces.
- Integrated REST APIs, Mapbox-powered mapping, and Video.js features for dynamic market data and interactive monitoring.
- Improved website performance and responsiveness while implementing SEO best practices.

TECH STACK

Vue.js | Nuxt.js | Mapbox | Video.js | Figma | Pinia
