KHURSHED KHAN

Senior Frontend Developer | Full-Stack Developer

Dubai, UAE | +971 559553204 | Khurshedkhan52@gmail.com | khurshedkhan.dev | linkedin.com/in/khurshed-khan

PROFESSIONAL SUMMARY

Senior Frontend Developer (Full-Stack) with 9+ years of experience building React.js and Next.js applications for FinTech, Forex/CFD trading platforms, and enterprise systems in the UAE. Strong expertise in TypeScript, Angular, and Vue.js, with full-stack experience in Node.js, Express.js, PostgreSQL, and Prisma ORM. Skilled in real-time WebSocket dashboards, secure financial workflows, WCAG 2.1 AA accessibility, UAE TDRA-aligned government applications, and AI features using the Gemini API.

TECHNICAL SKILLS

Frontend Technologies	React.js, Next.js, TypeScript, Angular 19, Vue.js, Nuxt.js, JavaScript (ES6+), HTML5, CSS3
State Management & UI	NgRx, Pinia, Redux, TanStack Query (React Query), Context API, Tailwind CSS, Angular Material, Ant Design, Bootstrap
Backend & API Development	Node.js, Express.js, REST APIs, PostgreSQL, Prisma ORM, WebSockets
Integrations	Stripe, Veriff (KYC), PSP Integration, i18n (Arabic RTL/LTR), Live Market Data APIs
AI & LLM Integration	Gemini API, Secure LLM Integration, Prompt Engineering, Generative AI Integration
Visualization, GIS & Media	Recharts, Highcharts, Chart.js, Mapbox, Video.js
Quality & Performance	Playwright, Responsive Design, Performance Optimization, State Management, WCAG 2.1 AA, UAE TDRA, CSP, XSS/CSRF Mitigation, Cross-Browser Testing
Tools & Technologies	Git, GitHub, CI/CD, Postman, MongoDB
Soft Skills	Complex Problem Solving, Agile/Scrum, Mentorship

PROFESSIONAL EXPERIENCE

Senior Frontend Developer (Full-Stack) | **Trive International, Dubai** — **October 2025 – Present**

- Lead application development for **Forex/CFD trading platforms** using React.js, Next.js, and TypeScript.
- Develop end-to-end financial application features using React.js, Next.js, Node.js, REST APIs, and database integrations.
- Delivered **Angular 19 client portal features** using **TypeScript and NgRx**, including authentication, KYC, account management, and payment workflows.
- Built **real-time trading dashboards** using WebSockets for live market data.
- Reduced page load time by **40%** through code-splitting, lazy loading, and bundle optimization.
- Architected a library of **20+ reusable UI components**, accelerating feature development.
- Lead technical decisions for a team of **3–5 developers**, including code reviews and architecture improvements.
- Collaborate with product and engineering teams to deliver secure, scalable financial applications.

Senior Frontend Developer | **CPT Markets, Dubai** — **March 2021 – September 2025**

- Developed and maintained **global trading platforms** using React.js, Next.js, Vue.js, and TypeScript.
- Built **real-time dashboards, GIS maps, and video interfaces** using Highcharts, Mapbox, and Video.js.
- Delivered **multilingual Arabic and English experiences** using i18n for international users and regional markets.
- Integrated **REST APIs, WebSockets, and financial systems** for live prices and account workflows.
- Built reusable UI components, mentored junior developers, and partnered with UX and backend teams to improve **delivery speed and code quality**.

Frontend Developer | **Micro Pro LLC — General Authority of Sports, Dubai** — **February 2017 – February 2021**

- Developed responsive, accessible, and interactive **government web applications** using Angular, TypeScript, JavaScript, HTML5, and CSS3.
- Built **reusable Angular components** and multilingual **Arabic (RTL) and English (LTR) interfaces** with consistent layouts and user experience.
- Delivered accessible **WCAG 2.1 AA and UAE TDRA-aligned government interfaces**.
- Integrated REST APIs, applied **CSP and XSS/CSRF mitigation**, and optimized performance and cross-browser compatibility for secure government applications.

EDUCATION

Bachelor of Technology (B.Tech)
Computer Science & Engineering
Sabarmati University, Ahmedabad, India
2011 – 2015

Languages	English, Hindi
Nationality	Indian

Project Summary

01 TradePro — AI-Powered Trading Platform

Senior Full-Stack Developer | FinTech & AI Integration

Visit Link | GitHub

RESPONSIBILITIES

- Designed and developed responsive trading dashboards and financial data visualizations using Next.js, React.js, TypeScript, Recharts, Tailwind CSS, and Ant Design, integrating live market data APIs for real-time prices and currency exchange rates.
- Developed full-stack trading application features using Node.js, Express.js, Prisma ORM, and PostgreSQL, building REST APIs and integrating frontend and backend workflows.
- Implemented secure authentication, customer onboarding, and trading account management, including Veriff KYC integration, identity verification workflows, and customer profile management.
- Developed multi-currency financial transaction modules for deposits, withdrawals, internal transfers, balance tracking, and currency conversion, including transaction lifecycle management.
- Built an AI-powered trading assistant using the Gemini API, enabling users to query account balances, transaction history, and withdrawal statuses through a conversational interface.
- Built a secure Node.js AI proxy that handles user-specific financial requests locally and uses Gemini only for sanitized public market and trading queries.
- Developed financial reporting modules with advanced filtering, server-side pagination, and transaction history, while building reusable React components, custom hooks, and type-safe API service layers for maintainability and scalability.

TECH STACK

Frontend:	Next.js, React.js, TypeScript, JavaScript, Tailwind CSS, Ant Design, Recharts
Backend & Database:	Node.js, Express.js, Prisma ORM, PostgreSQL
Integrations:	REST APIs, Live Market Data APIs, Veriff (KYC), Stripe, Currency Exchange APIs
AI & Secure Proxy:	Gemini API, Conversational AI, Secure Node.js AI Proxy, Sanitized Query Routing
Tools & Architecture:	Git, GitHub, Postman, Custom React Hooks, Component-Based Architecture, Server-Side Pagination

RESPONSIBILITIES

- Developed responsive and scalable user interfaces using Angular, TypeScript, and Ant Design.
- Built secure user registration, authentication, KYC verification, and client profile management modules.
- Integrated payment service providers (PSPs) to support secure wallet deposits, withdrawals, and transaction processing.
- Managed application state using NgRx for user sessions and trading workflows.
- Collaborated with backend developers to integrate REST APIs for MetaTrader 4 (MT4), MetaTrader 5 (MT5), and real-time client account management.

TECH STACK

Angular | TypeScript | NgRx | Ant Design | PSP Integration

03 CPT Markets

Senior Frontend Developer
