

Professional Summary

Senior Frontend Developer with 9+ years of experience designing and developing scalable, high-performance web applications using React.js, Next.js, Angular, Vue.js, and TypeScript. Specialized in fintech, trading platforms, real-time dashboards, and enterprise applications. Experienced in integrating AI/LLM capabilities into frontend products, including Gemini-powered conversational interfaces and natural-language workflows.

Technical Skills

Frontend Technologies	React.js, Next.js, TypeScript, JavaScript (ES6+), Angular, Vue.js, Redux, TanStack Query (React Query), Context API, Ember.js, HTML5, CSS3
UI Frameworks	Tailwind CSS, Bootstrap, Angular Material, Ant Design
Data Visualization	Highcharts.js, Chart.js
Backend & API Integration	Node.js, REST APIs, WebSocket, API Integration, Third-Party Services
AI & LLM Integration	Gemini API, LLM Integration, Prompt Engineering, Generative AI Integration
Testing & Quality	Playwright, End-to-End Testing, UI Automation, Cross-Browser Testing
Tools & Technologies	Git, GitHub, MongoDB, Figma, Webpack
Soft Skills	Complex Problem Solving, Agile/Scrum, Mentorship

Professional Experience

- Senior Frontend Developer | Trive International, Dubai

October 2025 — Present

 - Lead frontend architecture and development of **Forex/CFD trading platforms** supporting thousands of active traders, using React.js, Next.js, and TypeScript.
 - Architected a library of **20+ reusable components**, significantly cutting new feature development time.
 - Built **real-time trading dashboards** handling high-frequency WebSocket price updates with minimal latency.
 - Reduced page load time by **40%** through code-splitting, lazy loading, and bundle optimization.
 - Own frontend technical decisions across a team of **3-5 developers**, including code review standards and architecture reviews.
 - Partnered directly with product and backend teams to ship new features on a regular release cycle, integrating **REST and WebSocket APIs** for live market data.
- Senior Frontend Developer | CPT Markets, Dubai

March 2021 — September 2025

 - Developed and maintained **global trading platforms** using React.js, Next.js, Vue.js, and TypeScript.
 - Built **interactive financial dashboards** with Highcharts.js for real-time market data and trading analytics.
 - Delivered **multilingual Arabic and English experiences** using i18n for international users and regional markets.
 - Integrated **REST APIs, WebSockets, and financial systems** for live prices and account workflows.
 - Built reusable UI components, mentored junior developers, and partnered with UX and backend teams to improve **delivery speed and code quality**.
- Frontend Developer | Micro Pro LLC — General Authority of Sports, Dubai

February 2017 – February 2021

 - Developed responsive, accessible, and interactive **government web applications** using Angular, TypeScript, JavaScript, HTML5, and CSS3.
 - Implemented multilingual **Arabic (RTL) and English (LTR) interfaces**, ensuring consistent layouts, typography, and user experience across languages.
 - Developed frontend interfaces aligned with **UAE TDRA digital government guidelines and standards**, focusing on usability, accessibility, and responsive design.
 - Integrated REST APIs and collaborated with backend developers, UI/UX designers, and stakeholders to deliver **scalable government web applications**.
 - Optimized frontend performance, cross-browser compatibility, and **reusable Angular components** to improve application quality and maintainability.

Project Summary

01

TradePro AI Trading Platform

Senior Frontend Developer | AI Integration
