Professional Summary

Senior Frontend Developer with 9+ years of experience designing and developing scalable, high-performance web applications using React.js, Next.js, Angular, Vue.js, and TypeScript. Specialized in fintech, trading platforms, real-time dashboards, and enterprise applications. Proven expertise in building responsive user interfaces, API integrations, performance optimization, and leading frontend initiatives. Strong experience collaborating with cross-functional teams and mentoring developers to deliver enterprise-grade solutions.

Technical Skills

Frontend Technologies	React, Next.js, Angular, Vue.js, Redux, Context API, Ember.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
UI Frameworks	Tailwind CSS, Bootstrap, Angular Material, Ant Design
Data Visualization	Highcharts.js, Chart.js
Backend Integration	REST APIs, WebSocket, API Integration, Third-Party Services
Tools & Technologies	Git, GitHub, Node.js, MongoDB, Figma, Webpack
Soft Skills	Complex Problem Solving, Agile/Scrum, Mentorship

Professional Experience

Senior Frontend Developer | Trive International, Dubai

October 2025 — Present

- Lead frontend architecture and development of Forex/CFD trading platforms supporting thousands of active traders, using React.js, Next.js, and TypeScript.
- Architected a library of 20+ reusable components, significantly cutting new feature development time.
- Built real-time trading dashboards handling high-frequency WebSocket price updates with minimal latency.
- Reduced page load time by 40% through code-splitting, lazy loading, and bundle optimization.
- Own frontend technical decisions across a team of 3-5 developers, including code review standards and architecture reviews.
- Partnered directly with product and backend teams to ship new features on a regular release cycle, integrating REST and WebSocket APIs for live market data.

- Key Achievements
- Developed real-time market data dashboards and reusable component libraries, accelerating feature delivery and improving development efficiency.
 - Improved application performance and reduced page load time by 40%.

Senior Frontend Developer | CPT Markets, Dubai

March 2021 — September 2025

- Developed and maintained global trading platforms using React.js, Next.js, and Vue.js.
- Implemented multilingual support (i18n) for international users.
- Built interactive analytics dashboards using Highcharts.js.
- Integrated REST APIs, WebSocket services, and third-party financial systems.
- Worked closely with UX designers and backend teams.
- Mentored junior developers and improved code quality standards.

- Key Achievements
- Implemented multilingual support across global markets.
 - Improved development productivity through reusable UI components.

Education

Bachelor of Technology (B.Tech.)
Computer Science & Engineering

Languages English, Hindi

Project Summary

01

TradePro AI Trading Platform

Front End Developer
